

Marcus Engel – A/V Needs

Marcus is no diva! He doesn't work with any PowerPoints nor handouts. The only thing we ask is that there be a **normal size banquet table set up center-stage** for Marcus to use as a guide as to where he is on stage. If the room will be large enough where a microphone is required, please make sure it is a **hands-free microphone**.

Other than that, Marcus likes to set up in the back of the room (or where ever logistically works) to have time to meet & greet after his programming. He will usually also take this time to **sell and sign books, while meeting the attendees and allowing his seeing eye dog, Elliott, time to soak up all the attention he can get!** And believe me, does he get the attention! For this meet & greet time, another **normal size banquet table and a chair** is all Marcus will need.

Any other questions on A/V needs, feel free to contact us at any time!
